Blaze Agency (Jordan)

CITY OF LOST SPIRITS

ANCIENT PETRA : THE ADVENTURE BEGINS

Story Overview

Within the sacred walls of ancient Petra over three millennia of myths and legends lie buried deep within the mysterious shifting sands of Time...

Breathtaking tales of mythical beasts, fearsome monsters and powerful Djinnis, armed with the magical wisdom of the Ages...

Armies of lost souls – imprisoned for centuries within the walls of Petra by the malevolent Auger – await the "Guide", the Chosen One who can free them from their cruel bondage...

An epic conflict waged between the forces of Good and Evil – a battle that transcends Time itself...

All as much a part of Petra as her intricately carved stonework...

"**City Of Lost Spirits**" will weave an enchanting tapestry – an intricate and magical adventure that pays homage to its Arabic origins, as well as honouring Arabian culture and traditions.

Through the ancient powers of a mystical pendant, our Hero embarks on his quest to find the Fountain of Eternity and free the Lost Souls of Petra. We witness his incredible adventures as he confronts the enigmatic High Priest and the Daughters Of The Casket, the fearsome rage of the Auger (half human, half beast), the awe-inspiring magical power and sublime wisdom of the Djinn... and the power of Love over Hate... All set against a backdrop of an 'eternal' war that has raged for over 3000 years !

"**City Of Lost Spirits**" will be as spectacular and enthralling as its setting at Petra (which has earned its recognition as one of the most spectacular sites within the new "Seven Wonders Of The World" (for more information on the new 7 Wonders visit www.new7wonders.com.)

Unizarre will be utilizing state-of-the-art technology (especially computer graphics) to bring this spectacular saga of ancient Petra to life.

To convey the beauty and majesty of the film's locations, we plan to employ revolutionary 360 degree panoramic film technology. This advance - never before seen in film - is being spearheaded by **Universal 360** and their Managing Director Paul Shersby. You can discover more at their website www.universal360.com.

Preliminary design work for certain elements (Petra, certain creatures) is already underway at Black Mirror Studio (www.tbm-studio.com) – whose previous credits include **The Matrix** sequels (**Reloaded** and **Revolutions**) and Oliver Stone's **Alexander**.

CITY OF LOST SPIRITS

ANCIENT PETRA : THE ADVENTURE BEGINS

Project Details

The original story concept for "**City Of Lost Spirits**" was created by acclaimed Jordanian Writer/Director **Sandra Kawar Samain** of **Blaze Agency (Jordan)** and drew upon her deep knowledge and understanding of the myths and legends associated with Petra.

UK-based **Unizarre International** were contacted about the project due to their experience in epic myth-based projects and subsequently accepted the role of International Producers for '**City Of Lost Spirits**' is now the flagship project in Unizarre's formidable international slate.

'**City Of Lost Spirits**' is envisaged to be produced as a major multi-million dollar (US\$100 Million+) International Feature Film project with the "High Concept" tagline of :

'ARABIAN NIGHTS' MEETS 'RAIDERS OF THE LOST ARK'

David Bowles (CEO/President of Unizarre International) is heading up the project and (in liaison with Sandra Kawar) has completed development of the storyline. Unizarre are now currently scripting the project with special effort being made to retain the strong Arabian feel of the story whilst incorporating a high degree of historical and cultural content wherever possible. Because of the high end potential Unizarre are anticipating (and inviting) major international studios participation, global distribution & sales agency interest, and international sponsorship.

These factors should ensure "**City Of Lost Spirits**" realizes its full potential. This will have major benefits for Jordan (via tourism and related business) and for the Jordanian film industry (which should benefit substantially from its raised profile within the International Film world.)

"**City Of Lost Spirits**" offers an unparalleled opportunity to invest in Jordan's historical past as well as its commercial future : all via the exciting medium of motion pictures.

In addition the recent high profile international Press Conference with Jordan's distinguished Guest Speaker His Excellency Mr Akel Biltaji (Consultant of His Majesty, RFC Commissioner, and former Minister of Tourism) held at the Marriott Hotel in Amman, Jordan on 24th July 2007 and its resultant support and global publicity have provided international 'awareness' of the project. This in turn has already led to significant interests from many parties, not only from Jordan and Arabic countries, but also from the International community; thus ensuring "**City Of Lost Spirits**" is set to become one of the most significant films of the decade.
